

BROADBAND PROGRESS...WHAT'S GOIN' ON?

County Broadband has achieved the necessary interest from one third of villagers to progress their work on full fibre broadband to your property (FTTP). This is no guarantee that it will happen. CB will now do full planning/costing checks...backed by a multi-million pound investment from Aviva which helps! If they start the building it would be about nine months in normal circumstances...but nothing is normal at the moment. The present infrastructure can be shared with BT, but the cost of digging new underground cables or erecting more poles may make certain properties unreachable. To find out more:

matthew.buckman@countybroadband.co.uk or 01376 562002 ex 150

MOBILE PHONE MAST NUFFINK!!!! The last response from Waldon (the infrastructure organisers for O2) was "We are not yet quite in a position to schedule build works and understand it may be some months until we are." We keep on trying!

NEW GOVT LOCKDOWN GRANTS for retail, hospitality & leisure
