

BIZ BUZZ *Today's business crisis update*

18/03/2021

**SCAM WARNING...FAKE HEALTH AND SAFETY
INSPECTIONS**

Some businesses may be impressed ... others might be alarmed...to receive an email apparently from the Health and Safety Executive saying they are "doing spot checks and inspections on all types of businesses in all areas to ensure they are Covid safe." Our appointment is apparently at 0900 tomorrow morning. Knowing how slowly the wheels of Government normally grind, we were suspicious. We checked with the REAL address: www.hse.gov.uk. Surprise , surprise! Here's the **official** word:

Bogus email not from HSE HSE is aware businesses may have received a bogus email from Mark J. Burrows claiming to be from HSE. We are investigating the source of these emails and the content should be ignored. Please don't open any attached files or follow any links. There is no need to contact HSE.

Isn't it sad that when everyone is struggling to stay afloat, there are those who are setting up such cruel rip-offs? And there are so many of them. Do spread the word and always be cautious.

STAY SAFE... KEEP CALM... DON'T GIVE UP!
